

Competitive Programming

Official Contest Rule Book - Chaitanya 2026

Event Type:

Individual Contest (1 Participant per Workstation)

Duration, Problems & Setup:

3 Hours • 6 Problems • Languages: C++, Python, Java • Lab Environment

Description:

Competitive Programming is an individual coding competition testing algorithmic problem solving, logical deduction, programming fundamentals, implementation efficiency, and correctness under strict time limits. Conducted in a supervised lab environment using an official custom contest platform.

Problem Breakdown & Scoring Structure (1000 Pts Total):

- Problem Distribution:
 - Problem 1 (Easy): 100 Points
 - Problem 2 (Easy): 100 Points
 - Problem 3 (Medium): 175 Points
 - Problem 4 (Medium): 175 Points
 - Problem 5 (Medium): 175 Points
 - Problem 6 (Hard): 275 Points
- Ranking & Tie-Breakers: Rankings are determined primarily by total cumulative points. Ties are resolved automatically by the system based on total submission timestamps.
- Reference Sheet Policy: Participants may bring up to 2 A4 sheets (both sides allowed, strictly handwritten only) containing syntax, STL, algorithms, and formulas. No printed notes, textbooks, or photocopies.

Submission, Automated Judging & Verdicts:

- Submission Platform: All code must be submitted via the official contest website and is automatically evaluated against hidden test cases.
- Language Configurations: C++, Python, and Java only. Participants must verify compiler/language settings before submission.
- Verdicts & Zero Scores: Compilation Error (CE), Wrong Answer (WA), Runtime Error (RE), Time Limit Exceeded (TLE), and Memory Limit Exceeded (MLE) award zero points. Resubmissions are allowed subject to platform limits.

Prohibited Resources & Anti-Cheat Monitoring:

- NO SEARCH ENGINES • NO AI TOOLS • NO STACK OVERFLOW • NO OUTSIDE HELP
- Prohibited Aids: Using Google, Bing, ChatGPT, Claude, Gemini, Copilot, Stack Overflow, or online repos is strictly barred.
- Device Policy: Smartphones, smartwatches, tablets, and personal storage media are strictly prohibited at workstations.
- Real-Time Monitoring: Lab machines are actively monitored for prohibited applications, background processes, and tab/window switching. Tampering with anti-cheat software constitutes an immediate serious violation.

Participant Conduct & Technical Protocol:

- Disqualification: Any form of plagiarism, code sharing, unauthorized communication, device possession, or tampering leads to immediate disqualification and score cancellation.
- Clarifications: Use the platform's official clarification mechanism for problem ambiguities.
- Technical Issues: Notify lab staff immediately of hardware/network faults. Time is not automatically extended for individual technical faults. Judges' decisions are final and binding.
