

UI/UX designation

UI/UX Design Challenge - Official Rule Book

Event Type:

Individual OR Team of Maximum 2 Members

Duration & Format:

2 Hours • Surprise Theme • Common 2-Screen Base Wireframe Provided

Description:

RE:IMAGINE 2026 is a timed UI/UX redesign challenge where participants transform an identical base interface according to a surprise theme revealed live at the beginning of the contest. The competition centers on creativity, visual storytelling, theme interpretation, and usability rather than coding or building a functional application.

Base Wireframe & Redesign Scope:

- Provided Starting Material:
 - Participants receive a common 2-screen base wireframe: 1) Home / Event Discovery Screen and 2) Event Details Screen.
 - No wireframing from scratch: Time must be dedicated entirely to creative redesign, visual execution, and UI/UX decisions.
- Design Requirements & Freedom:
 - Visual Overhaul: Full freedom to change visual styling, typography, colour schemes, imagery, spacing, components, and layout hierarchy.
 - Core Usability: The essential functionality, required information, and underlying purpose of both screens must remain recognizable, intuitive, and usable.
 - Cohesive System: Both screens must form a unified product sharing a consistent visual identity and design system.

Software, AI Ban & Originality Rules:

- Permitted Software: Figma (recommended), Adobe XD, Photoshop, Illustrator, GIMP, or comparable UI design tools. Software must be configured on participant machines prior to event start.
- AI Policy (Zero Tolerance): AI tools are strictly prohibited. Participants must not use AI design generators, automated screen generators, or AI image synthesizers (e.g., Midjourney, v0, Galileo). AI usage results in immediate disqualification.
- Originality & Asset Guidelines: All major design work must be crafted during the 2-hour competition window. Open-source fonts and basic UI icons are permitted; complete pre-made UI kits, templates, or pre-designed graphic screens are prohibited.
- Single Deliverable: Exactly ONE PNG or JPG file containing both redesigned screens submitted via the official portal under assigned Team ID. Work ends at the 2-hour mark.

Evaluation Criteria (100 Marks Total):

- Creativity & Originality (30 Marks):
 - Uniqueness, innovation, creative interpretation of the concept, and avoidance of generic templates.
- Theme Adherence (25 Marks):
 - How clearly, effectively, and inventively the redesign expresses and communicates the revealed surprise theme.
- Visual Design & Execution (25 Marks):
 - Aesthetic appeal, typography hierarchy, colour balance, spacing, contrast, consistency, and visual polish.
- UI/UX & Usability (20 Marks):
 - Clarity of navigation, content readability, visual hierarchy, logical element placement, and user experience.

Judging Process & Tie-Breaking:

- **Impartial Evaluation:** Submissions are reviewed anonymously using assigned Team IDs to ensure unbiased scoring. If multiple judges evaluate, final scores are averaged.
- **Tie-Breaker Protocol:** In case of tied scores, ties are resolved in the following sequential order:
 1. Higher score in Creativity & Originality (out of 30)
 2. Higher score in Theme Adherence (out of 25)
 3. Final consensus decision of the judging panel.
- **Final Authority:** The decisions of the judging panel and organizing committee are final and binding.

Code of Conduct & Disqualification:

- **Fair Play & Independence:** Collaboration between different teams, copying another participant's work, accessing others' working files, or receiving outside design help is strictly prohibited.
- **Content Guidelines:** Submissions must be decent and suitable for a campus audience. Offensive, discriminatory, hateful, or sexually explicit graphics are barred.
- **Disqualification Grounds:** Immediate disqualification for AI generation, plagiarism, team collusion, unexcused late submission, or misconduct.

Event-Day Participant Checklist:

- ✓ Arrive before the reporting time with charged laptop & design software ready.
- ✓ Receive common 2-screen base wireframe & attend live secret theme reveal.
- ✓ Complete both screens within the 2-hour design sprint.
- ✓ Verify consistency, typography contrast, readability, and theme alignment.
- ✓ Export exactly ONE combined PNG or JPG file containing both screens.
- ✓ Submit via the official portal with Team ID before the upload window closes.
